MEMORANDUM

TO: Senate and House Committee on Appropriations, Members of the Government Accountability Committee; and Members of the Vermont General Assembly
CC: Kristin Clouser, Douglas Farnham, Adam Greshin, Budget Analysts, and Performance Accountability Liaisons
FROM: Justin Kenney, Chief Performance Officer
RE: FY 2023 Programmatic and Performance Measure Budget Report
DATE: March 28, 2022

Attached, please find the annual Programmatic and Performance Measure Budget (PPMB) Report which is a collaboration between the Department of Finance & Management and the Office of the Chief Performance Officer and being submitted in accordance with [32 V.S.A. §307 \(c\)\(2\)](#).

As you read through the report, please note the following:

- This report consolidates roughly 40 submissions across the Executive Branch related to over 180 programs. Financial data was provided generally by business managers and performance data by Performance Accountability Liaisons or program staff. The Chief Performance Office does not verify that the data provided is accurate. Any questions about the content of the report should be addressed directly to the agency or departments the question pertains to.
- Participation by the Governor's Cabinet (agencies and departments) is strongly encouraged. Other non-Cabinet executive branch elected offices, boards, commissions, and the Judiciary were invited, but not required to participate.
- Timing is a critical component of having accurate data and in some cases, there is a lag between when financial data is submitted (September in most cases) and performance data is submitted (March in an extreme case). As such, some of the data provided may not be as up to date as it could be. We are looking at ways to improve the data collection process for future reports.
- In addition to making improvements to data collection as mentioned above, we are also looking at options for enhancing the layout and useability of the report which may include data visualizations like those provided by AHS.

I hope that you find this report and its content valuable. I'm very much looking forward to expanding and improving PPMB in the coming years.

If you have any questions regarding the report, please contact me at justin.kenney@vermont.gov.

Executive Summary

The Programmatic and Performance Measure Budget (PPMB) Report is a collaboration between the Department of Finance & Management and the Office of the Chief Performance Officer and is a requirement of [32 V.S.A. §307 \(c\)\(2\)](#). PPMB is intended to bring together financial information and performance data at a programmatic level to better inform decision-making and resource allocation. Starting with 13 programs in its first year, participation in PPMB has grown considerably since then, now including more than 180 programs across state government. Although there is still much more work to do to increase participation further, and to more formally embed performance and data driven decision-making into the budgetary process, we continue to make steady progress year after year.

The report that follows is broken into four main sections as outlined below.

Section 1: Performance Accountability Liaison (PAL) List

This is a list of the staff who have been appointed as Performance Accountability Liaisons as per [32 V.S.A. §2312](#).

Section 2: Programmatic Performance Measures (excluding the Agency of Human Services)

This section provides information associated with the performance of programs participating in the PPMB Pilot project. Each year we continue to grow the number of programs represented. For easy reference, we have also included some high-level financial details for each program.

Section 3: Programmatic Performance Measures (Agency of Human Services)

Since the Agency of Human Services (AHS) already utilizes *Clear Impact's Results Scorecard* software for much of their programmatic reporting, we've allowed them to also do so for the purposes of PPMB. Data has been provided in this report as screen captures of their scorecard but can also be viewed online at <https://embed.clearimpact.com/Scorecard/Embed/75559>.

Section 4: Program Profile Report

This section provides more granular financial information on a larger set of governmental units and programs (not just those participating in PPMB) as submitted by business managers using a Program Profile template which should have been included in legislative hearing materials associated with the budget.

It should be noted that this report consolidates roughly 40 submissions across related to over 180 programs. Financial data was provided generally by business managers and performance data by Performance Accountability Liaisons or program staff. The Chief Performance Office does not verify that the data provided is accurate. Any questions about the content of the report should be addressed directly to the agency or department the question pertains to.

Department of Libraries	ABLE Library	The ABLE Library serves blind Vermonters and anyone with a visual impairment or print, reading, or learning disability. The ABLE Library—housed at the Vermont State Library—is a network library for the National Library Service for the Blind and Print Disabled (NLS) and connects patrons of all ages to NLS services. We offer a collection of large print and digital talking books featuring all genres, print braille picture books, as well as audio-described DVDs. The name, ABLE, is an acronym that stands for our primary services - Audio, Braille, Large-print, and Electronic books. We would like to expand this service to serve more eligible Vermonters. 	Collections & Reference/Government Services	Resource Sharing / Interlibrary Loan - Interlibrary Loan & Courier: Statewide resource sharing is a core program of the Department of Libraries (VTLIB). Vermont school, academic, and public libraries all participate in interlibrary loan. We have increased participation in the courier program to include 111 libraries, which includes public, school, and academic libraries. The combination of the courier service and VTLIB's interlibrary loan software system removes barriers between Vermonters and the information they need. With access to millions of books through interlibrary loan, the courier system reduces the burden of transportation costs for libraries, allowing the overall library system to better reach its full potential. COVID impacted this program significantly in the last fiscal year, but numbers have recovered to approach pre-pandemic levels in late 2021. Agency of Agriculture, Food & Markets	Act 250 Criterion 9(B) /Primary Agricultural Soils	The Act 250 Coordinator position provides in depth review of impacts to primary agricultural soils (PAS) associated with proposed developments under Criterion 9(B), and issues recommendations to the District Environmental Commissions of the Natural Resources Board. The Agency's reviews address whether soils meet the definition of PAS, acreage of proposed impacts to PAS, acreage of mitigation warranted, and sufficiency of any proposed on-site mitigation. The results of this program include farmland set aside for present and future agricultural use through on-site mitigation (enforceable by permit condition issued by the District Commission); as well as off-site mitigation where approved by the Commission. Off-site mitigation consists of a payment to the Vermont Housing & Conservation Board's (VHCB) off-site mitigation fund, leveraged with other funds to achieve permanent farmland conservation easements in the region of development. The Act 250 Coordinator provides quarterly and annual programmatic reporting to VHCB, including comprehensive project spreadsheets. 	Vermont Economic Progress Council (VEPC)	VEPC's Vermont Employment Growth Incentive (VEGI) program authorizes companies to earn cash incentives if the project meets certain statutory criteria and the company will create qualifying new jobs for Vermonters and make qualifying capital investments in Vermont that are beyond their normal growth and because of the incentive. The incentives are earned and paid out over time only if the company meets and maintains payroll, headcount, and capital investment performance requirements in addition to maintaining their base payroll and employment. The purpose of the program (See 32 VSA Section 5813) is to generate net new revenue to the state by encouraging businesses to add new payroll, create new jobs, and make capital investments and sharing a portion of the revenue with the business. The new qualifying jobs must be full-time, permanent, and pay above 140% of Vermont minimum wage with a defined set of benefits; must be above 160% of Vermont minimum wage for certain regions of the state. Data provided here is based on actuals for CY 2018 and CY 2019 outcomes. Data for the previous and current calendar years are not yet available. Due to the lengthy verification process we will not have figures for the actual activity (incentives paid, new jobs created, net new revenue generated) for 2021 until 2023. Claims for activity in 2020, for example, were filed April 2021 and examined by the Department of Tax throughout 2021 and into 2022 and will be reported to VEPC in summer of 2022. Data is based on incentive amounts that have been paid not what was originally authorized which are limited by an annual cap. But, the annual amount of incentives authorized and paid has no bearing on our budget. Dollars for the incentives are not appropriated, they come from future revenues that are generated only because the incentives are approved for each project. So increasing or decreasing our budget has no bearing on the amount of incentives approved or denied or the jobs created. Additionally, the budget amount is for two staff (and operating expenses) to administer two programs, not just the VEGI program. Plus, Tax has a staff person involved in the VEGI program as well, and that budget portion is not included here. Department of Housing & Community Development	Historic Sites	Historic Sites Program- The mission of the Vermont State-owned Historic Sites Program, which is part of the Vermont Division for Historic Preservation, is to encourage the discovery and appreciation of the state's rich heritage through the stewardship and interpretation of historic sites that evoke an authentic sense of time and place. The Vermont State-owned Historic Sites Program supports the Executive and Agency goals and priorities to make Vermont more affordable and grow the economy. The program and funding promote the public's knowledge and use of historic sites and resources; furthering a stronger sense of the environment, history and community; and strengthening stewardship of public and private historic assets. The historic sites have welcomed 1,536,416 visitors from Vermont, across the United States, and around the world since 1999. The Program includes 83 state-owned historic resources located throughout Vermont; ten sites with 62 resources are open to the public for touring, education, and community events/meetings (seven sites open for COVID 2020 season). These historic sites speak to not only the historic context and architectural heritage of Vermont, but also to our national history, with the homes of U.S. senators and presidents. Our historic sites teach the public about the Revolutionary War, War of 1812, emancipation of slaves, architecture from the 18th through 20th centuries, agriculture and working landscapes, Native Americans, education, and our state's progressive 1777 Constitution. What our visitors learn at these historic sites, they take with them when they return to their Vermont homes or beyond our state's borders. These stories cannot be told without the buildings, sites, structures, and objects where the events actually occurred, and their preservation/maintenance is essential to enable that education, tourism, and celebration. The funding provided through the Capital Construction Budget covers the maintenance at state-owned historic sites statewide, including routine, preventive, emergency, deferred, ongoing, and major maintenance activities. This allows the admissions fees to be affordable for all Vermont residents and visitors; admission is free to school-aged children and active military. The historic sites grow the economy with the employment of five permanent and 56 seasonal employees, with vendors and contractors engaged for more than 50 construction projects annually. Maintenance projects are strategically planned and prioritized with conditions assessments and engineering reports. Department of Public Safety	Fire Academy	<p>The Chief Training Officer oversees the operations of the Vermont Fire Academy located at the Emergency Services Training Facility in Pittsford, VT. The Vermont Fire Academy has a full-time staff of 7 and is responsible for administering, developing, delivering, and documenting all fire fighter training for both career and volunteer participants. Each year the academy delivers critical and valuable training directly to fire departments throughout Vermont by delivering training props to local communities at no cost. Firefighter training programs are available to the 6,500 Vermont firefighters / 243 fire departments. These include Firefighter 1 & 2, Fire Instructor I, Fire Officer 1&2, Hazardous Materials, Incident Command Management and Terrorism-related courses to name a few. The Fire Academy recently developed a pro-board fire inspector certification class which will save the division and municipalities money as the class is instructed free of charge by subject experts from Vermont. The class is designed to meet the specific needs of Vermont and provides inspectors a solid foundation focused on the national fire problem. The fire academy has developed a basic entry-level exterior fire fighter class to help in recruitment efforts. The class once completed will be approximately 50 hours in length and the academy will hand-off the program to local fire departments for their use. The East Cottage building will be renovated into dorm rooms allowing first responders, law enforcement, EMS and other groups to use the dorm while attending training at the facility. The Chief Training Officer is appointed and reports to the Director of the Fire Safety Division.</p>	<p>FY2021 Actual \$1,776,700 FY2022 Estimated \$1,869,706 FY2023 Requested \$1,748,657</p>	Course Offerings	How Much? Department of Public Safety	Haz Mat Response Team	<p>The State HAZMAT Team was created in 1994 to assist all fire departments in Vermont when managing hazardous materials incidents. The team's authorizing legislation as well as the creation of the HAZMAT Team Chief can be found in Vermont Statutes, 20 V.S.A. § 33. The purpose for the Team's creation was and remains to work with local fire chiefs before, during and after hazardous materials events in their municipalities. HAZMAT Technicians are geographically located across the State with three HAZMAT response vehicles strategically located and equipped with useful state of art sophisticated equipment ready to support Incident Commanders on the ground in making critical life safety decisions that may have a profound impact on a community. In addition, the Team can call upon any of the twenty HAZMAT trailers loaded with emergency response equipment strategically positioned in local fire departments throughout the State. These trailers contain equipment, which may be used for operations level HAZMAT response as well as to perform "gross" and "technical" decontamination.</p> <p>The Vermont HAZMAT Response Team (VHMRT) endeavors to have highly trained and equipped personnel on scene quickly when requested by the Incident Commander. The Team trains monthly with local fire departments and other State Agencies including the Civil Support Team ensuring an effective and efficient use of resources. The Team has been a role model for other States.</p> <p>Vermont's Community Right-To-Know Program, 20 VSA Chapter 1, Vermont's Rules and Regulations dated October 1995, and the Federal Emergency Planning and Community Right-to-Know Act (EPCRA) which is a part of 42 USC Chapter 116, require that certain hazardous materials must be reported annually between Jan 1 - March 1st for the preceding calendar year.</p> <p>The Vermont State Emergency Response Commission (SERC) requires facilities to submit Tier II reports by using the Environmental Protection Agency (EPA) Tier2Submit software program. State's Attorneys and Sheriffs	Sheriffs	The State General Fund pays the salary and benefits for the 14 Sheriffs, 25 State Transport Deputies and 1 Executive Staff Assistant. Sheriffs provide professional law enforcement services, including transport of prisoners, mentally ill persons, and juveniles who are in the custody of the State of Vermont. Transport work is conducted primarily through State-employee Deputy Sheriffs, (and supplemented through non-State employee per diem deputies). Sheriffs are responsible for the service of all criminal process documents and provide security services, including during high-risk hearings or trials. 	Special Investigations Units	Special Investigation Units are established in each region of the State pursuant to 24 V.S.A. § 1940 to address the unique needs of victims and investigators in cases involving sexual offenses, domestic violence, and crimes against vulnerable persons. At the core of each SIU is a multi-disciplinary team of dedicated detectives, medical professionals, victim advocates, DCF workers, and DOC personnel – who collectively strive to provide a seamless support network for victims and a quality investigative result for criminal or family court action where appropriate. There are currently twelve SIUs around the State, serving areas roughly contiguous with county borders. Each SIU is an independent, non-profit entity. The SIUs are supported in substantial part by two types of grants funded by the State SIU budget: program support grants and law enforcement grants. The program support grants are intended to defray SIU operational costs. The law enforcement grants are intended to fund dedicated and specially-trained law enforcement officers who work out of the SIUs but are employees of a municipal or county police agency.	FY2021 Actual \$1,966,216 FY2022 Estimated \$2,100,430 FY2023 Requested \$2,163,730	Number of Law Enforcement Grants Pilot Project: SIU in collaboration with Vermont Children's Alliance, (i.e. 13 members of Vermont's Children's Advocacy Centers (CACs), recognized a gap in service throughout Vermont regarding prevention of sexual abuse. Historically, most educational outreach occurred in the midst of an sexual assault investigation, placing the responsibility on the survivors and families affected. It is now acknowledged that was not best practice. As such, the SIU Board has taken the opportunity to move resources to a primary prevention model that seeks to end sexual violence before it begins. The best proactive steps to present sexual abuse and violence is to provide comprehensive education within our schools and communities. As such, the SIU Board has approved funds for a pilot project, with a Training Outreach Coordinator to start in southern Vermont, with the goal of expanding this work statewide.	How Much? How Much? What We Do

The Family Supportive Housing (FSH) Program provides intensive case management and service coordination to homeless families with children and helps house families through partnership with housing providers. The program's goal is to reduce the incidence and duration of homelessness through supports for families as they transition to and sustain permanent housing over time. Service coordination and case management focus on the root causes of a family's homelessness; promote resiliency for parents and their children; and help households build financial capability. FSH staff take a holistic, two-generation approach using non-judgmental, positive, and trauma-informed communication and engagement in their support of families.

P VDH AOA Family Planning Services (PPMB) Time Period: Current Actual Value: Current Trend

What We Do

Family planning is one of the 10 great public health achievements of the 20th century. A priority of the Vermont Department of Health is to increase the percent of pregnancies that are healthy and planned. The Division of Maternal and Child Health supports programs and initiatives that strengthen the family planning system in Vermont.

The Health Department administers the Title X Family Planning Services Program. This work is carried out in partnership with Planned Parenthood of Northern New England, and supports Title X services in 10 Planned Parenthood clinics across the state. The goal of Vermont's Title X program is to provide high quality clinical family planning and related preventive health services, education and counseling to Vermonters who would otherwise not have access, with a special focus on low-income and rural populations.

Tobacco Control Program (PPMB)

Time Period Current Actual Value Current Trend

What We Do

Tobacco use is the number one preventable cause of death, but about 800 Vermonters still die each year from tobacco-related diseases. Given this morbidity and mortality, three goals guide the work of the Tobacco Control Program: prevent youth smoking; reduce adult smoking; reduce exposure to second-hand-smoke. The Health Department Tobacco Control Program employs Centers for Disease Control and Prevention best practice in four key areas to address these goals:

- Cessation services help Vermonters quit smoking through the Quitline, Quit Partners, or Quit Online as part of 802Quits. These services are evidence-based and greatly increase the chances a smoker will quit successfully. The program also partners to provide nicotine replacement therapy
- Mass Reach Media, including hard-hitting ads, is shown to be effective in reaching those who smoke and inciting them to reach out to 802Quits. This includes television, radio, and social media efforts.
- State and community interventions raise awareness on the actions decision makers can take to reduce the toll of tobacco. These include educating decision makers about passing smoke-free policies at local parks and playgrounds, which reduce secondhand smoke exposure and create positive social norms around tobacco use, and changing the tobacco retail environment, where exposure to product and advertising causes youth tobacco initiation. The Vermont Department of Health and the Agency of Education fund two youth tobacco prevention groups – Our Voices Xposed (OVX) in high schools and Vermont Kids Against Tobacco (VKAT) in middle schools.
- Surveillance and evaluation ensure the program stays on track and uses data to drive programmatic decision making. The Tobacco Control Program invests in data collection, analysis, and dissemination to partners in and outside of government.

What We Do

Survey and Certification (S&C) is the State Survey Agency for the State of Vermont. In this role, S&C licenses and certifies health care organizations to ensure that they meet minimum state and federal regulatory compliance. S&C fulfills its mission by conducting unannounced, regular surveys at health care facilities, and investigating complaints made about the care received in these facilities.

What We Do

Division Philosophy

DVR's mission is to help Vermonters with disabilities prepare for, obtain, and maintain meaningful careers and to help employers recruit, train, retain and promote employees with disabilities. Consumer choice and self-direction are core values that drive DVR's approach to providing services and developing new programs. DVR's ability to help jobseekers succeed also depends on clearly understanding needs of our other customer – employers. To that end, DVR plays an important facilitating role in Creative Workforce Solutions (CWS), an Agency of Human Services (AHS) initiative that builds on DVR's initial employer outreach work.

Division Overview

The Division of Vocational Rehabilitation serves people with disabilities in Vermont who face barriers to employment. We help VR consumers figure out what work will work for them through careful assessment, counseling and guidance from our expert staff. We capitalize on our extensive networks in the employer community to create job opportunities and make good placements that match employer needs with jobseeker skills, and help employers retain staff with disabilities. We use our financial resources within Vermont communities to support our consumers as they transition to stable employment, and our employers as they try out new workers.

Field (Community Supervision) Statuses:

Furlough:

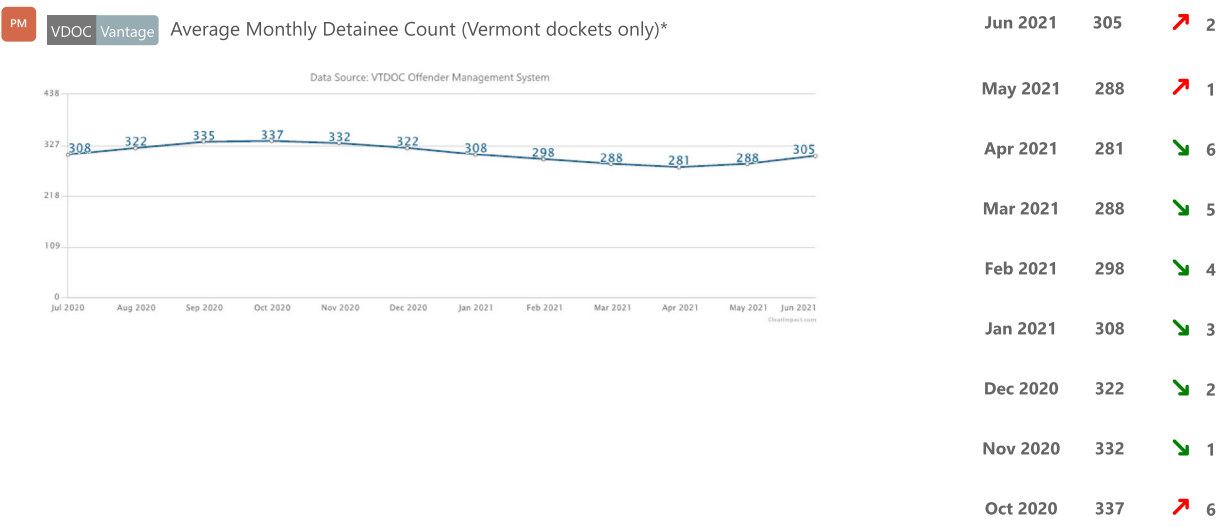

- **Community Supervision Furlough (primary furlough status):** At the completion of the minimum term of sentence, the incarcerated individual may be released to the community under conditions of furlough.
- **Treatment Furlough:** A status for an individual who is participating in an approved residential treatment program outside of a correctional facility.
- **Medical Furlough:** A status for an individual who is diagnosed with a terminal or debilitating condition. The individual may be released to a hospital, hospice, or other licensed inpatient facility, or other housing accommodation deemed suitable by the Commissioner.
- **Pre-Approved Furlough:** Sentenced to confinement with prior approval of the Commissioner of Corrections, the individual is eligible for immediate release on furlough. Furlough status is a community placement, but with more stringent rules for behavior. Conditions of release typically contain treatment or community work crew.
- **Home Detention:** A program of confinement and supervision that restricts an unsentenced defendant to a pre-approved residence continuously, except for authorized absences, and is enforced by appropriate means of surveillance and electronic monitoring by the DOC.

Parole: The release of an incarcerated individual to the community before the end of their sentence subject to conditions imposed by the Parole Board and subject to the supervision and control of the Commissioner of Corrections. Includes:

- **Interstate Commission for Adult Offender Supervision ("ICOTS"):** An individual may be transferred to another state via the New England Interstate Corrections Compact, the Interstate Corrections Compact, and the Federal Bureau of Prisons contract at the discretion of the Commissioner/Designee when the classification process has determined out of state placement is appropriate.
- **Supervised Community Sentence:** Based on a law passed in 1990, the judge sentences, with prior approval of the Commissioner of Corrections, to a set of conditions, minimum and maximum time frames and an intermediate sanctions program under the supervision of the Department of Corrections. The Parole Board is the appointed authority and violations are resolved through a Parole Hearing.

Probation: An individual found guilty of a crime upon verdict or plea, is released by the court without confinement, subject to the conditions and supervision by the Commissioner of Corrections. This is a contract between the individual and the court, to abide by conditions in return for the court not imposing a sentence of confinement. Violation of this sanction requires due process, with a court hearing, counsel, and preponderance of evidence. Within the probation sanction is the reparative probation program, which allows citizens on community panels to determine the quality of restitution made to the victim and repair of harm to the community, consistent with 28 VSA Chapter 12.

Work Crew: Individuals may work without pay and participate on a service team as a way of making amends to the community for criminal conduct.

What We Do

DOC provides healthcare services in DOC facilities. These services are administered in a humane and professional manner, with respect to incarcerated individuals' constitutional rights to healthcare and protection from cruel and unusual punishment. Health services staff ensure that the basic healthcare rights of incarcerated individuals are protected, including the rights to:

- Access comprehensive correctional health care and services in accordance with prevailing medical standards;
- Receive care, treatments, and tests which are ordered by a qualified healthcare professional (QHCP);
- Consent to and refuse treatment;
- Have advanced directives; and
- Preserve the confidentiality of their protected health information.

All healthcare services are predicated on sound scientific principles, evidence-based practices, and methods of care optimally tailored for a correctional environment. Services are provided by licensed, certified, professionally trained, and appropriately credentialed personnel. The DOC also collaborates with other Agency of Human Services (AHS) Departments to provide additional evaluation on the provision of community standards of care.

What We Do

The Parole Board is an autonomous body that is included in the Corrections appropriation for administrative purposes. The Board reviews referrals by the DOC for individuals incarcerated or on furlough supervision who are eligible for parole consideration to include initial eligibility hearings, presumptive parole administrative reviews, or subsequent reviews. The Board reviews all requests to address allegations of violation of conditions of parole supervision through a reprimand hearing or a formal violation hearing. The Board reviews requests for condition modifications, parole rescission, or early discharge. In addition, the Parole Board is responsible for reviewing all individuals placed on Supervised Community Supervision (SCS) at the expiration of their minimum sentence to determine if the individual should be discharged or to continue the individual on SCS. The Board is also responsible for reviewing all requests to address violation of conditions for individuals on SCS.

- **Hold Status:**
 - Hold: held for US Marshals or other jurisdiction

Field (Community Supervision) Statuses:

Furlough:

- **Community Supervision Furlough (primary furlough status):** At the completion of the minimum term of sentence, the incarcerated individual may be released to the community under conditions of furlough.
- **Treatment Furlough:** A status for an individual who is participating in an approved residential treatment program outside of a correctional facility.
- **Medical Furlough:** A status for an individual who is diagnosed with a terminal or debilitating condition. The individual may be released to a hospital, hospice, or other licensed inpatient facility, or other housing accommodation deemed suitable by the Commissioner.
- **Pre-Approved Furlough:** Sentenced to confinement with prior approval of the Commissioner of Corrections, the individual is eligible for immediate release on furlough. Furlough status is a community placement, but with more stringent rules for behavior. Conditions of release typically contain treatment or community work crew.
- **Home Detention:** A program of confinement and supervision that restricts an unsentenced defendant to a pre-approved residence continuously, except for authorized absences, and is enforced by appropriate means of surveillance and electronic monitoring by the DOC.

Parole: The release of an incarcerated individual to the community before the end of their sentence subject to conditions imposed by the Parole Board and subject to the supervision and control of the Commissioner of Corrections. Includes:

- **Interstate Commission for Adult Offender Supervision ("ICOTS"):** An individual may be transferred to another state via the New England Interstate Corrections Compact, the Interstate Corrections Compact, and the Federal Bureau of Prisons contract at the discretion of the Commissioner/Designee when the classification process has determined out of state placement is appropriate.
- **Supervised Community Sentence:** Based on a law passed in 1990, the judge sentences, with prior approval of the Commissioner of Corrections, to a set of conditions, minimum and maximum time frames and an intermediate sanctions program under the supervision of the Department of Corrections. The Parole Board is the appointed authority and violations are resolved through a Parole Hearing.

Probation: An individual found guilty of a crime upon verdict or plea, is released by the court without confinement, subject to the conditions and supervision by the Commissioner of Corrections. This is a contract between the individual and the court, to abide by conditions in return for the court not imposing a sentence of confinement. Violation of this sanction requires due process, with a court hearing, counsel, and preponderance of evidence. Within the probation sanction is the reparative probation program, which allows citizens on community panels to determine the quality of restitution made to the victim and repair of harm to the community, consistent with 28 VSA Chapter 12.

Work Crew: Individuals may work without pay and participate on a service team as a way of making amends to the community for criminal conduct.

What We Do

Through grants to community partners, the DOC supports the provision of transitional housing, rental assistance, housing search and retention, and other supportive services for individuals released to the community from Vermont's correctional facilities. The primary purposes of the program are to:

1. Promote housing stability of individuals returning to the community from incarceration;
2. Supervise and support individuals in the least restrictive environment (conducive with public safety); and
3. Provide opportunities for reintegration and connections to community and services.

With a safe, stable place to live, participants are able to find employment, engage in substance abuse and mental health treatment, pursue education or training opportunities, and connect to services that will support their long-term stability in the community.

What We Do

The purpose of risk intervention services is to increase public safety by providing services which reduce the risk of an offender committing a new crime. Research demonstrates that services which adhere to risk, need and responsivity (RNR) principles have the greatest impact on reducing recidivism. The effects of services are most profound when applied to offenders who have the higher risk of recidivism and focus upon the dynamic risk factors which are correlated with the risk of recidivism, are responsive to the capacities of the offender and use evidence-based modalities with fidelity.

What We Do

The Department of Mental Health is a major partner in the Agency of Human Services Integrating Family Services initiative. IFS brings together different programs and funding streams within AHS to create a single, flexible service delivery and payment system for services and supports to children, youth and their families so that practice and planning better match their needs.

DMH has two participating providers: Counseling Services of Addison County (CSAC) and Northeast Counseling and Support Services (NCSS). These providers work with the Parent Child Centers in their respective regions.

What We Do

The Middlesex Therapeutic Community Residence (MTCR) is a seven-bed secure residential facility designed to provide a community-based aftercare option for people who are ready to discharge from a psychiatric hospital but still require considerable support in their recovery process. We believe in a holistic approach to mental health and wellness. At MTCR, we encourage residents to collaborate with their treatment team in creating a strengths-based, recovery focused plan to address their individual challenges and goals.

Budget Information

What We Do

The DVHA strives towards the Institute for Healthcare Improvement's "Triple AIM":

- Improving the patient experience of care (including quality and satisfaction)
- Improving the health of populations
- Reducing the per capita cost of healthcare

One of the strategies the DVHA has adopted to move towards the "Triple AIM" is **utilization management** of our most intensive and high-cost services, which include inpatient psychiatric hospitalization. Inpatient psychiatric services, which include detoxification, are paid on a per day basis, unlike hospitalization on traditional medical inpatient units. This per day payment methodology has the potential to create a dis-incentive for providers to make efficient use of this high cost, most restrictive level of care. While CRT members' hospital costs are included in their case rate payment to the Designated Agencies (DAs), which creates an incentive for the DAs to work efficiently with the inpatient units to transition their members back to their existing community services and supports, no such incentives exists for children or non-CRT enrolled adults.

What We Do

The Vermont Blueprint for Health is a state-led, nationally-recognized initiative that helps health care providers meet the medical and social needs of people in their communities. The Blueprint's aim is constant: better care, better health, and better control of health care costs.

The Blueprint encourages initiatives to support and improve health care delivery. It promotes innovative initiatives aimed at improving health outcomes, increasing preventive health approaches, addressing quality of life concerns, and increasing access to quality care through patient-centered medical homes and community health teams.

Time Period Current Actual Value Current Trend

Budget Information

What We Do

The Vermont Chronic Care Initiative (VCCI) provides holistic, intensive and short-term case management services to Vermont residents enrolled in Medicaid, including dually eligible members. VCCI works with non- ACO members identified using claims-based methodology and members identified by health care providers and community partners in need of complex care management. VCCI case managers are also welcoming new members to Medicaid, by outreaching and asking questions about primary care provider, health conditions and other supports that would assist them in maintaining or improving their health as well as housing, food and safety. The VCCI team works to connect members with medical homes, community-based self-management programs, and local care management teams.

The VCCI utilizes common tools and processes adopted by the local community care teams as part of the complex care model to include eco mapping, identification of lead care coordinator, facilitating care teams, and shared care plan development.

Licensed case managers trained in the complex care model, deliver services in communities throughout the state.

Time Period	Current Actual Value	Current Trend
-------------	----------------------	---------------

Budget Information

What We Do

Vermont Medicaid offers dental programs for both children (through Dr. Dynasaur) and adults. Dental coverage for children under Dr. Dynasaur is a robust benefit that includes the dental services necessary to prevent disease and promote oral health, restore oral structures to health and function, and treat emergency conditions.

The Agency of Human Services (AHS) made the following changes to the Medicaid adult dental benefit effective January 1, 2020.

- Increased the annual maximum dollar limit on adult dental services from \$510 to \$1,000.
- Allowed up to two visits for preventive services per calendar year that do not count towards the \$1000 annual maximum dollar limit and removing copayments from preventive dental services listed below, including D0120 Periodic Oral Exam.

These changes are a result of Act 72 enacted during the 2019 legislative session. The changes are intended to expand adult Medicaid beneficiaries' access to dental care and encourage the utilization of preventive dental care. These changes apply to Medicaid beneficiaries age 21 and older, who are not pregnant or in the postpartum period.

Codes for preventive services outside of the annual maximum dollar amount include:

Preventive Services
D1110 Prophylaxis – Adult “cleaning”
D1206 Topical Fluoride Varnish
D1208 Topical Application of Fluoride
D1354 Silver Diamine Flouride
D1320 Tobacco Counseling for the Control and Prevention of Oral Disease

Use Tax Reimbursement Fund - Municipal Current Use (Hold Harmless Payments)									
The municipal current use payment is required by 32 V.S.A. 3760 and is distributed on November 1 every year. Under the Current Use program, the taxable value of enrolled parcels is reduced to a use published annually by the Current Use Advisory Board. The homestead or non-homestead education property tax rates are applied to the use value rather than the listed value which is higher. The purpose of the payment is to reimburse municipalities for their forgone municipal portion of property tax from parcels enrolled in the Current Use program. Reimbursement is based on the enrollments and municipal tax rates from the prior year.	FY21 Actual Expense	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -		\$ 17,120,500.00

Act 250 Criterion 9(B) /Primary Agricultural Soils									
The Act 250 Coordinator position provides in depth review of impacts to primary agricultural soils (PAS) associated with proposed developments under Criterion 9(B), and issues recommendations to the District Environmental Commissions of the Natural Resources Board. The Agency's reviews address whether soils meet the definition of PAS, acreage of proposed impacts to PAS, acreage of mitigation warranted, and sufficiency of any proposed on-site mitigation. The results of this program include farmland set aside for present and future agricultural use through on-site mitigation (enforceable by permit condition issued by the District Commission); as well as off-site mitigation where approved by the Commission. Off-site mitigation consists of a payment to the Vermont Housing & Conservation Board's (VHCB) off-site mitigation fund, leveraged with other funds to achieve permanent farmland conservation easements in the region of development. The Act 250 Coordinator provides quarterly and annual programmatic reporting to VHCB, including comprehensive project spreadsheets. Dual Enrollment									
The Dual Enrollment Program provides Vermont's publicly-funded high school juniors and seniors the opportunity to take up to two college credit-bearing courses while they are still in high school. The administration of this program through the Agency of Education does not receive state or federal funding. COVID-19 created additional barriers to access for Dual Enrollment. Adult Education and Literacy									
The Adult Education & Literacy (AEL) program provides a range of learning services for adult learners in Vermont. By definition, an eligible learner is at least 16 years old; not enrolled or required to be enrolled in secondary school; and is basic skills deficient, does not have a secondary school diploma or its recognized equivalent, and has not achieved an equivalent level of education; or is an English language learner. An individual with a high school diploma who is basic skills deficient is eligible.	FY21 Actual Expense	\$ 3,334,885.00		\$ 1,071,238.00	\$ 900,216.00	\$ -	\$ 5,306,339.00		\$ 5,306,339.00

During fall 2021 the Agency of Education met with the state's Chief Performance Officer on a new approach to PPMB. In the previous year, the AOE had included two programs funded through federal IDEA funds. The Agency determined that these kinds of programs were not suitable to the goals of state results-based accountability because they are determined by federal funding formulas and are not as responsive to performance measurement through the state budgeting process. For the FY23 PPMB report the decision was made to strip back to the original two programs, Dual Enrollment and Adult CTE, with the intention to identify additional state-funded programs for FY24.

Medicaid Inpatient Psychiatric and Detoxification Utilization									
In 2012 the Department of Mental Health (DMH) and the Department of Vermont Health Access (DVHA) collaborated to create a unified, consistent utilization management system for all Medicaid-funded inpatient psychiatric and detoxification services. Acute inpatient mental health treatment is the most intensive level of psychiatric care. Treatment is provided in a 24-hour secure and protected, medically staffed environment with a multimodal approach. Detoxification is monitoring and management of the physical and psychological effects of withdrawal, for the purpose of assuring safe and rapid return of the individual to normal bodily and mental function. (Vermont Statutes, Title 33 §702). Inpatient detoxification refers to the medically managed treatment regimen requiring the full services of an acute care hospital to support the withdrawal of the addictive substance. Blueprint for Health									
The Vermont Blueprint for Health designs community-led strategies for improving health and well-being. Current Blueprint programs include Patient-Centered Medical Homes, Community Health Teams, the Hub & Spoke system of opioid use disorder treatment, the Women's Health Initiative, Support and Services at Home (SASH), Self-Management and Healthier Living Workshops, full population data and analytics for policy makers, communities, and practices, and a series of learning labs for providers and community teams. As Vermont's care delivery system and payment models evolve, the Blueprint's aim is constant: connecting Vermonters with whole-person care that is evidence-based, patient- and family-centered, and cost-effective. Medicaid's Vermont Chronic Care Initiative (VCCI)									
The Vermont Chronic Care Initiative (VCCI) provides holistic, intensive, and short-term case management services to Vermont residents enrolled in Medicaid, including dually eligible members. VCCI works with members referred for complex case management by healthcare and human services providers, state colleagues and partners, as well as through our care management predictive modeling methodology. VCCI case managers and outreach coordinators are also welcoming members new to Medicaid (NTM), and screening members to identify and prioritize needs. Our screening tool asks members questions about access to care (including primary and dental), the presence and status of health conditions, and inquiry about other needs that would assist them in maintaining +/or improving their health such as housing, food and safety. The VCCI team works to connect members with medical homes, community-based self-management programs, local care management teams and assist in navigating the system of health and health related care. Fire Academy									
The Chief Training Officer oversees the operations of the Vermont Fire Academy located at the Emergency Services Training Facility in Pittsford, VT. The Vermont Fire Academy has a full-time staff of 7 and is responsible for administering, developing, delivering, and documenting all fire fighter training for both career and volunteer participants. Each year the academy delivers critical and valuable training directly to fire departments throughout Vermont by delivering training props to local communities at no cost. Firefighter training programs are available to the 6,500 Vermont firefighters / 243 fire departments. These include Firefighter 1 & 2, Fire Instructor I, Fire Officer 1&2, Hazardous Materials, Incident Command Management and Terrorism-related courses to name a few. The Fire Academy recently developed a pro-board fire inspector certification class which will save the division and municipalities money as the class is instructed free of charge by subject experts from Vermont. The class is designed to meet the specific needs of Vermont and provides inspectors a solid foundation focused on the national fire problem. The fire academy has developed a basic entry-level exterior fire fighter class to help in recruitment efforts. The class once completed will be approximately 50 hours in length and the academy will hand-off the program to local fire departments for their use. The East Cottage building will be renovated into dorm rooms allowing first responders, law enforcement, EMS and other groups to use the dorm while attending training at the facility. The Chief Training Officer is appointed and reports to the Director of the Fire Safety Division. Haz Mat Response Team									
<p>The State HAZMAT Team was created in 1994 to assist all fire departments in Vermont when managing hazardous materials incidents. The team's authorizing legislation as well as the creation of the HAZMAT Team Chief can be found in Vermont Statutes, 20 V.S.A. § 33. The purpose for the Team's creation was and remains to work with local fire chiefs before, during and after hazardous materials events in their municipalities. HAZMAT Technicians are geographically located across the State with three HAZMAT response vehicles strategically located and equipped with useful state of art sophisticated equipment ready to support Incident Commanders on the ground in making critical life safety decisions that may have a profound impact on a community. In addition, the Team can call upon any of the twenty HAZMAT trailers loaded with emergency response equipment strategically positioned in local fire departments throughout the State. These trailers contain equipment, which may be used for operations level HAZMAT response as well as to perform "gross" and "technical" decontamination.</p> <p>The Vermont HAZMAT Response Team (VHMRT) endeavors to have highly trained and equipped personnel on scene quickly when requested by the Incident Commander. The Team trains monthly with local fire departments and other State Agencies including the Civil Support Team ensuring an effective and efficient use of resources. The Team has been a role model for other States.</p> <p>Vermont's Community Right-To-Know Program, 20 VSA Chapter 1, Vermont's Rules and Regulations dated October 1995, and the Federal Emergency Planning and Community Right-to-Know Act (EPCRA) which is a part of 42 USC Chapter 116, require that certain hazardous materials must be reported annually between Jan 1 - March 1st for the preceding calendar year.</p> <p>The Vermont State Emergency Response Commission (SERC) requires facilities to submit Tier II reports by using the Environmental Protection Agency (EPA) Tier2Submit software program. The EPA provides this software application at no charge.</p>	FY21 Actual Expense	\$ -	\$ -	\$ 668,845.99	\$ -	\$ -	\$ 668,845.99	1	\$ 38,961.45

State's Attorneys									
State's Attorneys are statutorily-charged with enforcing state and local laws through case prosecution and administrative actions. They prosecute homicides, sexual assaults, domestic violence, drug trafficking, robberies, kidnapping, DUI, violation of abuse prevention orders, crimes against children and other vulnerable populations, etc.	FY21 Actual Expense	\$ 12,862,477.00	\$ -	\$ -	\$ 142,649.00	\$ 2,727,041.00	\$ 15,732,167.00	138	\$ -

Sheriffs									
The State General Fund pays the salary and benefits for the 14 Sheriffs, 25 State Transport Deputies and 1 Executive Staff Assistant. Sheriffs provide professional law enforcement services, including transport of prisoners, mentally ill persons, and juveniles who are in the custody of the State of Vermont. Transport work is conducted primarily through State-employee Deputy Sheriffs, (and supplemented through non-State employee per diem deputies). Sheriffs are responsible for the service of all criminal process documents and provide security services, including during high-risk hearings or trials. Special Investigations Units									
Special Investigation Units are established in each region of the State pursuant to 24 V.S.A. § 1940 to address the unique needs of victims and investigators in cases involving sexual offenses, domestic violence, and crimes against vulnerable persons. At the core of each SIU is a multi-disciplinary team of dedicated detectives, medical professionals, victim advocates, DCF workers, and DOC personnel – who collectively strive to provide a seamless support network for victims and a quality investigative result for criminal or family court action where appropriate. There are currently twelve SIUs around the State, serving areas roughly contiguous with county borders. Each SIU is an independent, non-profit entity. The SIUs are supported in substantial part by two types of grants funded by the State SIU budget: program support grants and law enforcement grants. The program support grants are intended to defray SIU operational costs. The law enforcement grants are intended to fund dedicated and specially-trained law enforcement officers who work out of the SIUs but are employees of a municipal or county police agency.
